**DUNEDIN STUDY GROUP MEETING**  
 Thursday 6 September 2012 at 6.30pm  
**CHRISTCHURCH STUDY GROUP MEETING**  
 Friday 7 September 2012 at 4:30pm

Dr Clarence Tam is practicing in Auckland and is an expert in aesthetic restorations using both porcelains and composites and Accreditation Candidate with the American Academy of Cosmetic Dentistry, NZACD Executive member, New Zealand Dental Association and Canadian Dental Association.

Clarence is a contributor of publications to the New Zealand Dental Association News as well as local media, and is a reviewer of new dental materials for several multinational dental companies.

**PRESENTER:**

**Dr Clarence Tam** HBSc DDS

**"The One-Two Punch:** A systematic module focusing on logical and comprehensive treatment planning leading to predictable strategies for successful case presentation."

The attendee will review in order the four integral domains of comprehensive treatment planning promoted and originally postulated by Dr John Kois followed by a systematic introduction to the acronym SPEROP(FR); a failsafe methodology to proper sequence multidisciplinary treatment for maximal predictability.

Demystified case presentation techniques will be dissected; turning this informed consent procedure from the fear-mongering process it once was into the inspiring integral trust building and patient-empowering exercise it can be.

**LEARNING OUTCOMES**

- The attendee will learn the basic algorithm for predictable sequencing of treatment (SPEROP (FR) with relative connection to the four integral domains of treatment planning originally postulated by Dr John Kois.
- The Attendee will be guided through a sample clinical case, where implementation of the principles of SPEROP (FR) will be demonstrated in a complex rehabilitation case.
- The attendee will learn psychological techniques to improve communication in case presentation and thus gain greater patient acceptance and trust.

All attendees must rsvp (for catering purposes) to  
 Robyn Bowie by Friday 31 August to [admin@nzacd.co.nz](mailto:admin@nzacd.co.nz)  
 or telephone 09 358 4647

You are welcome to bring your own cases for help or guidance. So that we can properly assist with a case you wish to bring along please submit photos, radiographs, case notes, etc on MS PowerPoint or simply as a pdf or email attachment to [earnsleugh@xtra.co.nz](mailto:earnsleugh@xtra.co.nz) two weeks prior to the meeting date.

If the x-rays aren't digital, don't worry, just take a digital photo on the viewer as it works quite well. You can also take photos of the study models and case notes. A short description of the problem and patient's wants/vision would also be good. On the night, bring the study models along (mounted preferably) and the remainder on a flash drive or hard copy if you wish. We do ask that you submit the case 2 weeks (minimum) prior to the meeting.
